Combining outstanding accuracy & versatility, Glory USF-52 offers all-in-one solution to count, sort, and authenticate banknotes in various widely-used currencies, leading to higher productivity & improved efficiency.

Manufactured by the main pioneer in cash processing machines & solutions, Glory Ltd. Japan

Glory USF-52
Multi-Currency Banknote Counting & Sorting Machine

Built to Last
Manufactured with premium quality & technology from Japan, Glory ensures efficient investment due to highly durable unit with much longer lifetime.

Proven Accuracy from Well-known Expertise
Equipped with the advanced counting & sorting technology, USF-52 ensures outstanding processing accuracy (99.99%) & consistency based on denomination, fitness level, new/old emission, face/orientation, counterfeit, and serial number recognition.

Secure Processing with Powerful Counterfeit Detection
Equipped with various authentication technologies such as IR, UV, MG, and thickness detection, as well as double image line sensor & serial number capture (OCR), the USF-52 greatly improves security, productivity, and minimizes loss by allowing continuous yet accurate banknotes detection in remarkably high speed.

Why Glory?

100 years of Experience & Dedication on Cash Processing Solutions
40 years of Experience in Indonesian Market
>1 million products in more than 100 countries

High Durability with much longer life-time span & high quality spare parts
High Performance for heavy-duty usage
Trusted by Worldwide Banking Solution Provider for technology of modules & components
Main Benefits of Using This Product

**Improved Staff Productivity**
with its high speed & consistency in counting and sorting banknotes.

**Improved Security & Accuracy**
with its outstanding counting, sorting, and authenticating technology that ensures accurate processing result.

**Long-Term Investment & Lower Maintenance Cost**
with its well-known quality, durability, and reliability.

**Improved Business Efficiency**
by providing all-in-one machine to count & sort banknote simultaneously, suitable for small-scale or rural branch, allowing them to do ATM replenishment independently (no third party’s service required).

**Improved Customer Service**
with lower rate of banknotes miscounting & faster service time.
