

GLORY®

Banknote Deposit Machine

DE-100

**Versatility neatly packaged within
a compact footprint**

**A Deposit Machine to meet the varying needs of
different business sectors.**

**A convenient compact device for managing the business deposit process (counting, authentication and storage).
The DE-100 - affordable Glory quality and durability
designed to revolutionise the Back Office.**

As the benefits of using the DE become recognised, businesses will find the device indispensable.

Using proven Glory technology to reduce losses and counterfeit exposure, the DE will help to create an environment where customer satisfaction is key.

Sophisticated design with minimal footprint.

The compact DE requires minimal space to deliver its variety of functions.

Handling full deposit processing as well as being used as stand alone value counter

Deposit Processing with Storage

Escrow

Deposits are held in escrow for approval before being committed to the storage bag.

Envelope Deposit

Mutilated notes as well as other non-cash items (ex. Gift Vouchers, Cheques and Coins) can be manually entered and added to the total. And they are to be placed in envelopes and can be stored in the storage bag, no need for a separate process.

Value Counting without Storage

Counting

Notes are counted up to 600 pieces per minute. The large infeed hopper can accommodate up to 300 pieces thus reducing count time.

Batch Counting

User definable (random or preset) batch size can be chosen to aid banknote counting.

Storage bag with large capacity - easier transportation of secured cash

The bag can hold up to 5,000 banknotes at a time.

The contents are secured in the bag via a shutter closure.

It is also reusable, thus keeping running costs significantly lower.

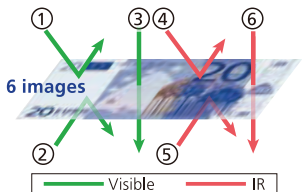

Highly reliable multi-currency recognition

Glory's highly acclaimed Recognition and Authentication technologies will prevent the acceptance of counterfeit banknotes. Even inexperienced operators are able to handle both local and foreign currencies in a reliable and productive manner.

Double Image Line sensors

Visible Radiation & IR sensors

Specifications

Product size (WxDxH)	370 x 370 x 1,040 mm	
Capacity	Hopper	± 300 notes
	Storage Bag	± 5,000 - 10,000 notes
	Reject	± 20 notes
	Escrow	± 100 notes
Processing Speed	± 600 notes/ minute	
Weight	± 70 kg	
Power Supply	100-240V ± 10% : 0.9A – 0.4A, 50/ 60 Hz	
Power Consumption	< 52 W	
I/F Port	USB, RS-232C	
Option	Card Reader	: ISO/IEC 7811
	Barcode Reader	: Support Symbologies EAN(JAN), UPC, ITF, CODE39, CODE128
	External Display
