

Combining outstanding accuracy & versatility, Glory USF-52 offers all-in-one solution to count, sort, and authenticate banknotes in various widely-used currencies, leading to higher productivity & improved efficiency.

Manufactured by the main pioneer in cash processing machines & solutions, **Glory Ltd. Japan**

# Multi-Currency Banknote Counting & Sorting Machine

## Glory USF-52

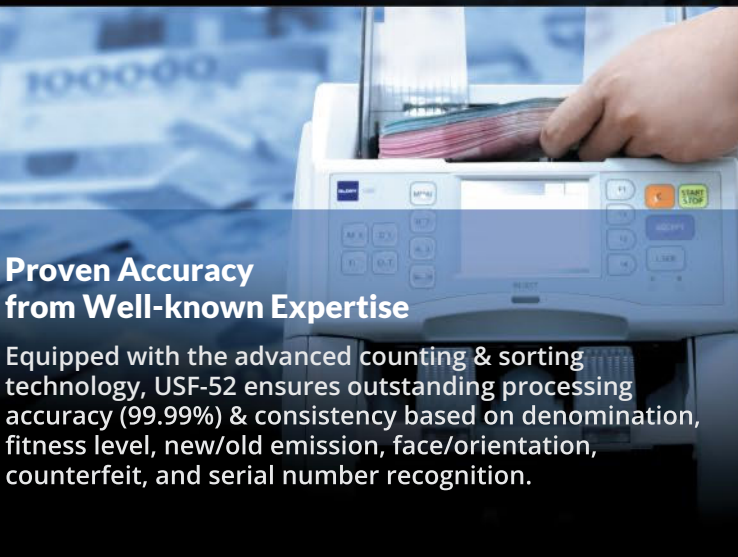

### Built to Last

Manufactured with premium quality & technology from Japan, Glory ensures efficient investment due to highly durable unit with much longer lifetime.

### Smartly Designed to Promote Healthier Working Environment

Carefully designed to improve User's health & comfort, the device is equipped with automatic stacker shutter that will minimize exposure of dust & germs from processed banknotes.

### Proven Accuracy from Well-known Expertise

Equipped with the advanced counting & sorting technology, USF-52 ensures outstanding processing accuracy (99.99%) & consistency based on denomination, fitness level, new/old emission, face/orientation, counterfeit, and serial number recognition.

### Secure Processing with Powerful Counterfeit Detection

Equipped with various authentication technologies such as IR, UV, MG, and thickness detection, as well as double image line sensor & serial number capture (OCR), the USF-52 greatly improves security, productivity, and minimizes loss by allowing continuous yet accurate banknotes detection in remarkably high speed.

### Why Glory?

**100** years of Experience & Dedication on **Cash Processing Solutions**

**40** years of Experience in **Indonesian Market**

**>1** million products in more than **100 countries**

**High Durability** with much longer life-time span & high quality spare parts

**High Performance** for heavy-duty usage

**Trusted by Worldwide Banking Solution Provider** for technology of modules & components

## Main Benefits of Using This Product

### Improved Security & Accuracy

with its outstanding counting, sorting, and authenticating technology that ensures accurate processing result.

### Improved Staff Productivity

with its high speed & consistency in counting and sorting banknotes.

### Long-Term Investment & Lower Maintenance Cost

with its well-known quality, durability, and reliability.

### Improved Business Efficiency

by providing all-in-one machine to count & sort banknote simultaneously; suitable for small-scale or rural branch, allowing them to do ATM replenishment independently (no third party's service required).

### Improved Customer Service

with lower rate of banknotes miscounting & faster service time.

## Technical Specifications

<b>Dimension</b> (WxDxH mm)	300 x 360 x 360 mm	<b>Weight</b>	18 kg
<b>Processing Speed</b>	650 – 720 banknotes/ minute	<b>Power Supply</b>	100-240V ±10%, 1.2 – 0.6 A, 50/60Hz
<b>Serial Number Recognition</b>	All four directions	<b>Power Consumption</b>	73 W
<b>Capacity</b>	<b>Hopper</b> 300 notes <b>Stacker</b> 200 notes <b>Reject Stacker</b> 100 notes	<b>External Connection (Option)</b>	RS-232C, USB, LAN
<b>Display</b>	TFT Colour Screen (70 x 53 mm)	<b>Optional Features</b>	Printer/ External Display/ Keyboard Multiple currencies capabilities (up to 7 currencies & 128 denominations): <b>IDR, USD, EURO, AUD, CNY, SGD, SAR</b>

## Related Solutions

### SMARTSERIAL™

Automatically record serial number from processed banknotes for easier archival, retrieval, and report generation to minimize potential dispute.

### External Display Glory D-100

4 digit and 8 digit remote customer display enables organization to provide valuable information to their customers during transaction.

### Glory UW-F Series

High capacity (up to 16 sorting pockets) banknote sorter with advanced counterfeit detection which delivers high performance banknotes processing.
