High Performance Banknote Sorting Machine

Glory USF & UW Series

VOLUME OF BANKNOTES — HIGH ▲ / LOW ▼

GLORY UW-600

GLORY UW-500

GLORY USF-300

GLORY USF-100

Recognized for its excellent heavy-duty performance, consistent accuracy, high durability and capability of handling high-volume cash processing, Glory USF & UW Series helps you streamline banknote recycling process for higher productivity & better efficiency.

Manufactured by the main pioneer in cash processing machines & solutions, **Glory Ltd. Japan.**

Why GLORY?

GLORY

100 years of Experience & Dedication on **Cash Processing Solutions**

40 years of Experience in **Indonesian Market**

>1 million products in more than **100 countries**

🛡 **High Durability** with much longer life-time span & high quality spare parts

⏱ **High Performance** for heavy-duty usage

🤝 **Trusted by Worldwide Banking Solution Provider** for technology of modules & components

Main Benefits of Using This Product

Greatly Improved Productivity & Efficiency
with its heavy duty, high speed, consistency, and reliability for continuous banknotes processing.

Improved Flexibility
with its modularly designed stacker to suit every business.

Improved Accuracy
with its outstanding sorting & authenticating technology that ensures accurate processing result.

Long-Term Investment & Lower Maintenance Cost
with its well-known quality, durability & reliability.

What Makes This Product Different?

Built to Last
Manufactured with premium quality & technology from Japan, Glory ensures efficient investment due to highly durable unit with much longer lifetime.

Proven Technology from Well-known Expertise
Equipped with the advanced sorting & authentication technology, the UW-F Series ensure outstanding sorting accuracy based on:

Fit / Unfit	Current Version / Old Version	Specified Denomination	Facing Up / Facing Down	100 pcs / 50 pcs / 20 pcs
Fitness Sorting	**New/Old Sorting**	**Denomination Sorting**	**Orientation Sorting**	**Batching Arrangement**

Consistent Result for Improved Productivity

To complement its large capacity hopper (up to 1.000 notes), the Glory USF & UW Series are equipped with Assisted Feeding Mechanism that will reliably feeds one note at a time to prevent jamming or high rejects due to double feeding.

This greatly improves productivity & efficiency in cash processing by allowing continuous, heavy-duty, yet accurate banknotes processing in remarkably high speed of up to 720 banknotes/ minute.

Uninterrupted Operation

Quick Error Recovery
by featuring a fully opening top that provide easy access to banknote pathway, making it easy to find and remove jammed notes or other foreign objects. A dust tray is also provided for easy removal of accumulated dust.
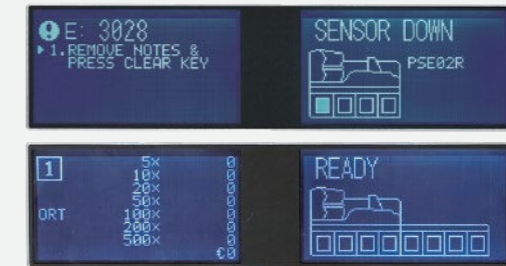

Dual Reject Stackers*
It allow suspected counterfeit notes to be diverted to a dedicated reject stacker, thus greatly saving time when reconciling deposits. This reduces the amount of work normally required for sorting rejected banknotes.

*for Glory UW Series

Smartly Designed to be Highly Informative

Glory USF & UW Series offer better visibility of information by featuring dual and side-by-side LCD display, one for informing the data from processed banknotes and the other for displaying illustrative operational guidance.

Modularly Designed for Maximum Flexibility

with selectable stacker configurations to suit every business needs

Glory USF Series - Desktop Banknote Sorter

Glory USF-100

Glory USF-300

Glory USF Series
allow effective use in a limited desk space

2 Teller Operations
by simply pressing the USER button to indicate current user (A/B).

All of the processed data from both Users will be recorded & consolidated by the system.

Glory UW Series - High Capacity Banknote Sorter

4 Output Stackers
Ideal for smaller sorting operations where only one or two sorting parameters are required.

Glory UW-500

8 Output Stackers
Ideal for multiple denomination sorting.

Glory UW-600
