

High Performance Banknote Sorting Machine

Glory UW-F Series

Designed specifically as the latest innovation from its predecessor, the highly reliable & accurate Glory UW Series, the Glory UW-F Series comes with higher processing speed & futuristic compact design, leading to higher productivity & improved efficiency.

Manufactured by the main pioneer in cash processing machines & solutions,

Glory Ltd. Japan

Why This Product Is Different?

Built to Last

Manufactured with premium quality & technology from Japan, Glory ensures efficient investment due to highly durable unit with much longer lifetime.

Higher Capacity for Higher Productivity

Compared to its predecessor (Glory UW Series), the UW-F offers a 50% increase in capacity for both the hopper and reject stacker. This greatly improves productivity & efficiency in cash processing by allowing continuous, heavy-duty, yet accurate banknotes processing in remarkably high speed.

Ergonomically Designed to Enhance User Experience

Carefully designed to provide optimal User experience, the device's horizontal stacker arrangement ensures that all User's touch points are placed within reach, creating more comfortable working position.

winner industrial design

Proven Technology from Well-known Expertise

Equipped with the advanced sorting & counterfeit detection technology, the UW-F Series ensure outstanding sorting accuracy & consistency based on denomination, fitness level, new/old emission, face/orientation, counterfeit, and serial number recognition.

Smartly Designed to be Highly Intuitive

The 10" colour touch screen display offers better visibility of information & operational guidance. The stacker also equipped with dedicated numeric display & light indicator that will be flashing when the notes are ready to be removed.

Why Glory?

100
years

of Experience & Dedication on **Cash Processing Solutions**

40
years

of Experience in **Indonesian Market**

>1
million
products

in more than **100 countries**

High Durability with much longer life-time span & high quality spare parts

High Performance for heavy-duty usage

Trusted by Worldwide Banking Solution Provider for technology of modules & components

Main Benefits of Using This Product

- 
Improved Productivity with its high speed & consistency in sorting banknotes
- 
Improved Accuracy with its outstanding sorting & authenticating technology that ensures accurate processing result
- 
Maximum Flexibility modular design with up to 4 selectable configurations to suit every business needs
- 
Enhance User Experience with its ergonomically designed stacker arrangement and highly intuitive display & indicator light
- 
Long-Term Investment & Lower Maintenance Cost with its well-known quality, durability & reliability
- 
Frees Up Space with its much smaller forms & footprint compared to its predecessors, the Glory UW Series

Technical Specifications

	UW-F4	UW-F8	UW-F12	UW-F16
Dimension (WxDxH mm)	600 x 455 x 620	890 x 455 x 620	1180 x 455 x 620	1470 x 455 x 620
Stacker Capacity	4 x 500 notes	4 x 500 notes 4 x 200 notes	4 x 500 notes 8 x 200 notes	4 x 500 notes 12 x 200 notes
Weight	65 kg	93 kg	121 kg	149 kg
Capacity	Hopper : 2.000 notes Reject Stacker : 300 notes			
Detection	UV, MG, IR, Thickness, Double Image Sensors, Serial Number Recognition*			

Processing Speed	Count : 1.000 notes/minute Sort : 1.000 notes/minute Fit/Unfit : 1.000 notes/minute Serial Number Recognition* : 1.000 notes/minute
Additional Detector Space	Yes
Currency	Up to 32 currencies and 256 denominations
Power Supply	100-240V ±10%, 50/60Hz
Power Consumption	200-392W
External Connection (Option)	LAN, RS-232C, USB

*Optional, depending on currency
