### THE MOBILE DIGITAL PLATFORM FOR 21ST CENTURY EDUCATION

This compact technology hub consolidates an LCD or laptop, keyboard and mouse, portable document camera/visualiser, DVD player, wireless extender, projection device and more on to one, stable platform. Untether from a desk, podium or any single place in the classroom and move wherever needed to deliver collaborative curriculum.

TeachWell's small footprint easily rolls through aisles, doors and cramped media areas while the height-adjustment platform moves the keyboard, display and worksurface in one simple motion. Change from a sitting to a standing position whenever you want as you teach or work.
