## IDEAL FOR TOUCHSCREEN AND ALL-IN-ONE PC APPLICATIONS

A robust hinge mechanism provides an incredible 115° of tilt adjustment while simultaneously controlling monitor height. This flexibility allows the screen to be moved parallel with the desktop—perfect for touchscreen applications.

This stand's strength and heavy-duty design also make it well suited for use with all-in-one PCs and hefty displays.

# Neo-Flex® Touchscreen Stand

- Includes base, hinged arm and pivot, adjustment tool
- Simple cable management feature routes cords
- Larger screens may contact the worksurface when moved to the lower position with the screen perpendicular to desktop: height-adjustment range may be limited
