ERGOTRON®

Tablet Management Station 16

READY . . . SET . . . CHARGE and SYNC!

The Ergotron Tablet Management Station is a super easy and affordable way to manage up to 16 USB devices

The ability to charge and sync multiple USB mobile devices simultaneously makes this desktop station ideal for multi-user environments, such as education, healthcare and corporate offices.

It offers universal compatibility with all Apple® iPad®, iPhone® and iPod® touch models, Samsung Galaxy Tab 2 10.1, Amazon Kindle products, most e-readers and other USB devices that are compatible with the USB 1.2 charging standard.
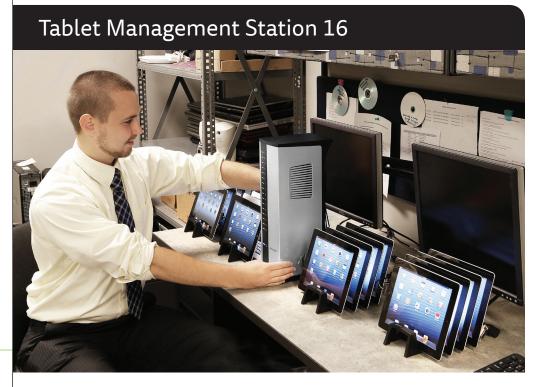

Highlights

- Universal capability supports tablets, e-readers and mobile phones that are compliant with USB 1.2 charging standards

- Sync and charge up to 16 devices; 4 devices per storage rack

- Plug-and-play right out of the box. Simply connect devices using their cables, place them into the racks and you're ready to charge and sync

- Space-saving tower style design is easy to move when needed and easy to store when not in use

- Charge all tablets simultaneously with one power cord to the wall socket

- Offers the same charge and sync capabilities as our full-featured Tablet Management desktop unit in a compact and super-affordable design

JUST STAND .ORG

MacBook and iPad devices shown above are not included

Identification stickers help keep your devices well organized

Individual Status Indicator (ISI) LEDs display charging status for all tablets at a glance. Amber light indicates charging is in progress; green indicates devices are fully charged.

30-Pin or Lightning USB cables attach from each device to a designated slot on the back of the tower

Universal Design

- Universal compatibility with all Apple iPad, iPhone and iPod touch models (30 pin and Lightning connector cables), Samsung Galaxy Tab 2 10.1, Amazon Kindle products, most e-readers and other USB devices*
- Compatible with both 30-pin and Lightning™ connector cables
- Full 2.1A charging capability provided to all 16 ports simultaneously. Station automatically adjusts to provide the correct amount of power required by the device
- Individual Status Indicator (ISI) LEDs provide charging status for all tablets at a glance
- Master laptop connects to station using included USB A to B cable

Super Compact Design

- Super lightweight station is easy for anyone to use and move
- Space-saving tower is easily stored when not in use

Easy Setup

- Plug-and-play right out of the box. Simply plug in devices using their cables, place them in the storage racks and you're ready to charge and/or sync
- Use with Apple iTunes, Apple Configurator, or other third party mobile device management software programs to prepare and sync up to 16 devices simultaneously

Certified for Safety

- Entire system is UL certified for guaranteed safe use within education, healthcare or corporate settings
- Tested and fully certified to UL 60950-1, FCC requirements and all applicable country-specific regulations
