Unified
Architecture

One Platform. Every Touchpoint.

Reinvent retail with brilliant, engaging experiences built to fit your store – Elo's modular platform provides customers with the building blocks to configure a multitude of solutions - making it easy to deploy applications from point-of-sale and self-service to BOPIS, price checkers and visitor management.

The Benefits of Elo
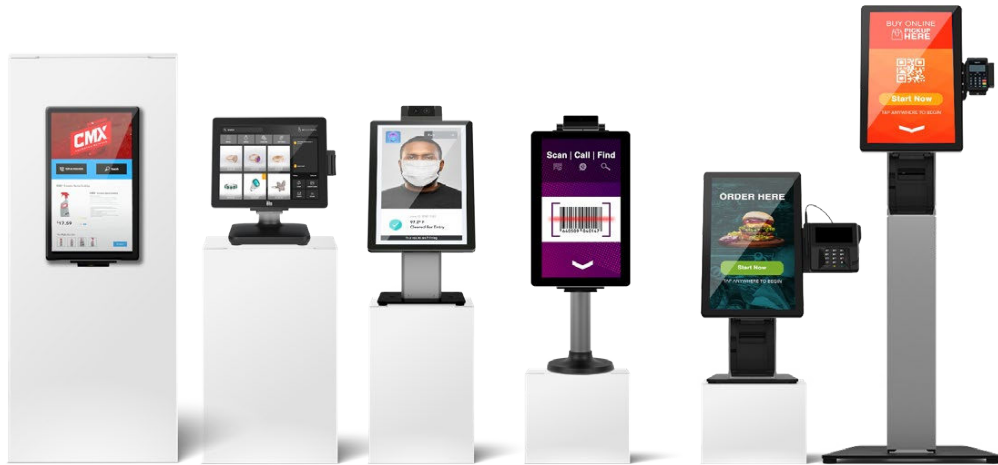

Sizes from 7 to 65 inches

Modular Platform

Retail Hardened Products

25+ Million Installations Worldwide

Versatility Across Environments

Android, Windows or Linux. You Choose.

For added flexibility, Elo offers Android-powered products, Windows-powered and products with no OS (pretested for Linux SuSE, Ubuntu and Red Hat operating systems) – allowing businesses to get the solution best-suited for them.

Elo Edge Connect™

Built with versatility in mind, the Elo Edge Connect system offers a wide assortment of peripheral options. Whether for point-of-sale, endless aisle or self-order applications, you can seamlessly attach any combination of up to four peripherals to the edge of the touchscreen creating a bespoke solution. And, you can add or move them later as your needs change!

Control Your Devices from Anywhere

EloView® allows you to deploy and securely manage your entire network of Elo Android-powered interactive signage, point-of-sale systems and kiosks - from anywhere around the world. You can deploy content, manage settings and maintain the OS to reduce operating costs while increasing up-time and security.
